

EnGage Creator empowers your users to create customized local messages. Users, local to a site, can quickly and easily create compelling graphical messages to communicate a wide range of messages to their patrons. EnGage Creator gives local users a sense of ownership and adds value to your digital signage network.

You control the look and feel while your customers control the messages. Creator ensures graphical pizzazz with its dozens of provided templates, or you can build your own. In addition to a general set of templates, EnGage Creator provides ready-made messages for a variety of business functions including: Special Occasions, Special Offers, Store Operations, and Emergencies.

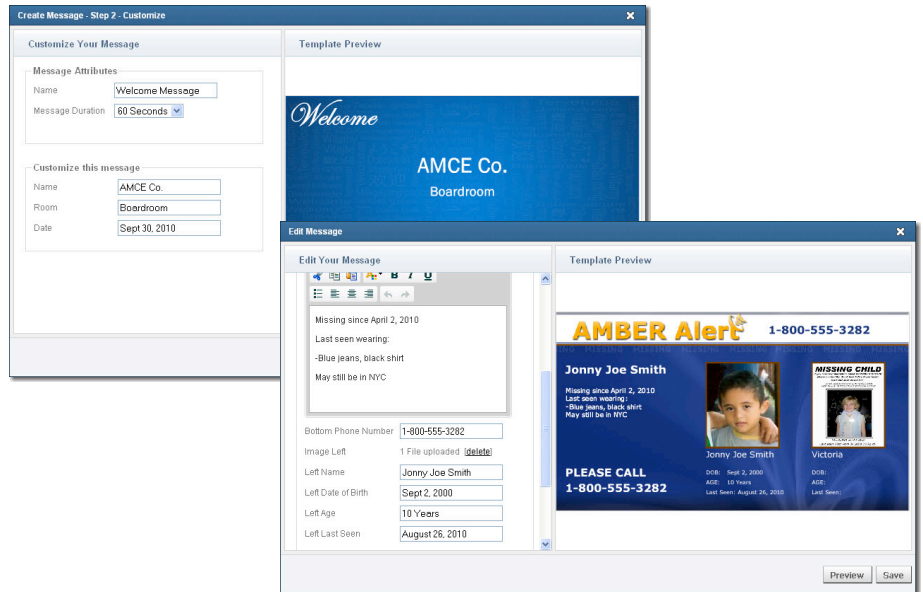

Messages can be scheduled with the advanced, yet simple to use, scheduling tool. Users can post messages to a single site or control a chain of sites.

**EnGage Creator can be used for:**

- Location hours
- Happy Birthday messages
- Did you know? Facts + trivia
